SEED PRESALE

Ember

Group bids on NFT auctions.

THE PROBLEM

Why Ember

- Great NFTs sell for more than one collector wants to spend.
- Pooling money with friends today means trusting one of them.

THE PRODUCT

How it works

- Bid rooms: each member puts in what they want.
- Ember bids as one wallet.
- A win goes to a shared vault; a loss refunds everyone.

THE RAISE

2B BONK target, paired with BONK

- Presale backers: 45%
- Locked pool: 45%
- Team, 1 year vesting: 10%

TEAM AND ROADMAP

Who builds it, and what is next

- Kai Mercer, founder
- Ada Novak, engineering

ROADMAP

- Bid rooms prototype, shipped
- Shared vault program
